Aarish Sheikh

Full Stack Java Developer

Wagholi, Pune | (+91)7249210279 | aarishsheikhworkspace@gmail.com | GitHub | Linked In | Portfolio

Professional Summary

Full-stack Engineer with experience in building Scalable applications and Backend systems, skilled in modern, high-demand frameworks: **Spring Boot (Java)**, **React.js (Frontend)**, and **Python (Django)**. Seeking a challenging role to architect, build secure and high-performance applications across the complete development stack.

Technical Skills

Programming Languages: *Java, Python, SQL(Postgre), HTML/CSS, Javascript, C.*
Frameworks: *Spring Boot, Django, React. Js, Angular Js.*
Database: *MySQL, PostgreSQL, MongoDB (NoSQL).*
Development Tools: *IntelliJ IDE, Vs code, Shopify, Eclipse IDE, Postman, Git, GitHub.*
Languages: *English, Marathi, German.*

Work Experience:

1. Full Stack Development Intern | **Low Code System Softwares** | [*June 2025 – January 2025]* | *Certificate*

- **Impact-Driven Optimization:** Spearheaded quality assurance efforts by diagnosing and resolving critical performance bottlenecks across 5+ production projects, resulting in a direct improvement in system stability. This was achieved while accelerating full-stack proficiency by over 60% and applying advanced Python/Django and MUI/Ant Design expertise.
- **Scalable Architecture & Delivery:** Contributed to the end-to-end development of new applications, designing scalable microservices and integrating complex logic to ensure 100% readiness for high-availability production deployment.

Selected Projects

1.AI-Powered README Generator | Link

Tools and Technologies: Spring Boot, React.js, MongoDB, Gemini, Docker | Duration: July 2025 – August 2025

- *Pioneered a full-stack application integrating the Gemini AI service via RESTful APIs to automate professional README.md generation. Architected a scalable microservice backend (Spring Boot/Docker) to support a production load of up to 500 concurrent users.*
- *Secured application access by integrating OAuth-based GitHub authentication on the frontend, validating expertise in secure third-party integration, and devising the core AI-driven algorithm for accurate documentation utility.*

2.Gym (Fithub) Management System | Link

Tools And Technologies: Java, Spring Boot, JavaScript, MongoDB, Docker | Duration: Dec 2024 – March 2025

- *Architected and delivered a database-centric management system that successfully streamlined core operations **by 25%**. Instituted **granular Role-Based Access Control (RBAC)** for Admin/Staff/Member, guaranteeing secure data segmentation and system integrity.*
- *Ensured **production readiness** by **leveraging Docker** for standardized deployment and efficient management.*
- *Developed an **interactive dashboard** over a MongoDB database to visualize critical business intelligence along with JWT+Session **Authentication** and **Authorization.***

3. Enessa Foods - Bakery Solutions Website | Link

Tools And Technologies: React.js, Figma, Django, Python, Tailwind CSS, PostgreSQL | Duration: Oct 2025–Nov 2025

- *Pivoted commercial value by launching a comprehensive website (Django/PostgreSQL) that effectively showcased offerings to facilitate B2B client engagement. Constructed a high-performance, visually adaptive (mobile-responsive) frontend that resulted in an optimal User Experience (UX).*
- *Developed a robust and resilient Django REST API backend leveraging PostgreSQL, creating a future-proof foundation for expansion. Achieved continuous service operation by successfully deploying the application to a production environment, guaranteeing uninterrupted availability.*

Education

M.C.E. Abeda Inamdar Senior College of Arts, Commerce and Science. — Pune, India
Bachelor Of Computer Science | 89.6% | 9.454 CGPA — *2022-2025*

Smt. Subhadrabai Ramchandra Bhumkar Junior College. — Pune, India
Science | 71.00% — *2020-2022*

Certifications & Soft-Skills

- Certifications: Java Backend Developer (ICT Academy), *Professional Certificate in SQL(Udemy)*, *Python & Django Web Development Course (Udemy)*, Cloud Computing (Acme Grade), *React Js-Complete Guide for Frontend Web Development(Udemy)*.
- Soft Skills: Problem-Solving (Proven ability to analyse and provide effective solutions, demonstrated by optimizing 8+ projects); Analytical Thinking; Team Collaboration; Effective Time Management (evidenced by successful completion of four large-scale software projects).
